

Trial Support Services

The Data Company is your partner in and out of the courtroom to maximize your case's potential. We offer a variety of services all designed to make your case more successful.

Onsite Hearing and Trial Staffing

Wherever in the country you have a trial, we can provide technologists, communication specialists, designers, videographers, digital editors, presenters and other professionals. We can assist in planning, staffing and implementation. Do you need last-minute presentation changes for your argument the next morning? We'll make it happen. You can count on The Data Company to be there by your side for the duration of the trial.

War Room Management

For short- or long-term trials, a remote workspace dedicated to the case provides the entire litigation team with the tools and access needed to operate smoothly. We have the experience and the equipment you need for cases of all sizes and complexities.

Courtroom Equipment Rental

- Web-enabled laptops
- Multimedia projection systems
- Video monitors and playback
- Graphic display systems
- Anything you need for an effective courtroom presentation

Mock Trials and Focus Groups

The Data Company has a full-size, technologically advanced courtroom in our downtown Memphis building. The courtroom is available for rental so that the litigation team can practice their arguments before a mock jury, prepare witnesses, familiarize the team with the presentation technology, or conduct mediation and arbitration.

Web Application Hosting (DataLawyer)

As you and your colleagues prepare for trial, where are you going to host the thousands of case documents and the software applications for the full team? DataLawyer is our proprietary, web-based application hosting system.

We can manage your documents and IT needs throughout of your case.

DataLawyer provides distinct advantages to your case.

- **Mobility** – Using the latest encryption methods and software security, you can access your files and applications anywhere, anytime.
- **Versatility** – Host a wide range of digital information and applications. DataLawyer is compatible with all major operating systems.
- **Affordability** – Use the software for the duration of the case without having to purchase, install, and maintain expensive software on your own company servers.
- **Neutrality** – Share data with co-counsel, clients and anyone you authorize to view your sensitive material.
