All your needs handled under one roof

Convenience and Amenities

Downtown Location. We're conveniently located at 4th and Court—just minutes from all downtown offices—right where you need to be.

Conferencing Facilities. So much more than a plain conference link you might find in a copy shop, The Data Company offers complete conference suite facilities to ensure that you project the image your firm wants to maintain.

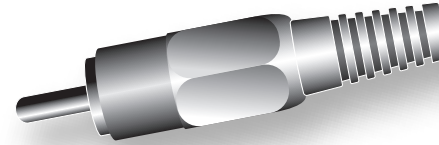

Video conferencing. Whether you need full video services or teleconferencing, you will find the space and technology for successful meetings—across town, the country or around the world.

Technology

Our video conferencing and teleconferencing equipment is the most advanced available. A one-to-one link connects you with one other office. Or, take advantage of our one-to-many video links, which create up to 10 simultaneous connections. You can videotape your own segment of the conference or your partner connection and ensure an accurate record of the day's business.

Other technology enhancements include

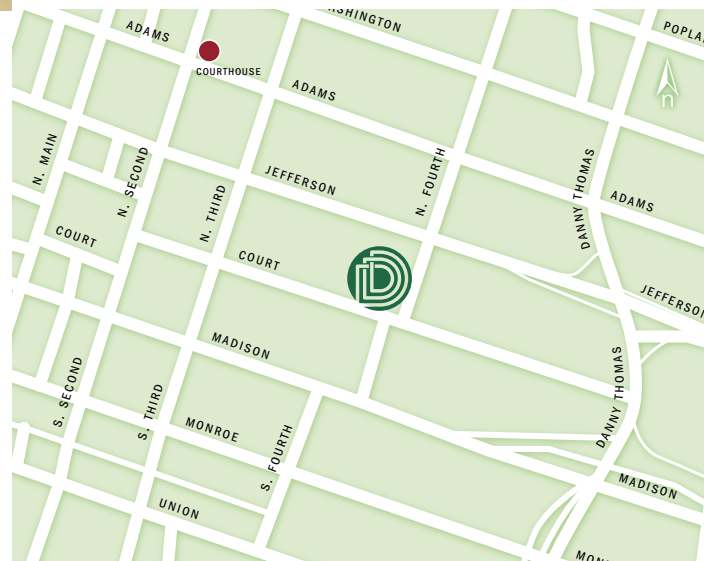

- Large screen—easy on the eyes
- Advanced, multi-link video conferencing equipment
- Video conference set-up services
- Video taping of any segment of the conference

Other Video Services

Video services are an indispensable part of the legal landscape. Our video professionals are all Certified Legal Video Specialists—the only ones in Memphis—who can assist you with all your video needs. From digitizing video tapes to making taped depositions available to you instantly over secure internet connections, we understand what it takes to win a case.

- Video editing
- Video depositions
- Video encoding
- Day-in-the-life videos
- Conversion of audio and video to digital formats
